Carol Hanlon, U.S. Department of Energy,
Yucca Mountain Site Characterization Office (M/S #205),
P.O. Box 30307,
North Las Vegas, Nevada, 89036-0307.

cc: U.S. Department of Energy, Office of
Civilian Radioactive Waste Management, Yucca Mountain Site
Characterization Office, (M/S #025), P.O. Box 30307, North Las Vegas,
Nevada 89036-0307, 1-800-967-3477.

The Department of Energy (the Department) announces additional opportunities, in various localities in Nevada and California, for the public to provide comments on the possible recommendation of the Yucca Mountain site in Nevada for development of a spent nuclear fuel and high-level radioactive waste geologic repository:

This is my comment:

THE EARTH IS NOT INHERITED TO US, WE ARE BORROWING IT FROM OUR CHILDREN.

HUMANS ARE ABLE TO EXIST *WITHOUT* NUCLEAR ENERGY AND *CANNOT EXIST WITH its WASTE. THERE IS NO KNOWN SAFE WAY TO DISPOSE OF ITS WASTE, SO WHY IS IT EVEN BEING UTILIZED!!!!????*

It is YOUR AND MY RESPONSIBILITY TO CONSERVE NATURAL RESOURCES WITHOUT MISUSE OR WASTE.

I AM AGAST THAT THIS PROPOSED YUCCA MOUNTAIN SITE IS EVEN CONSIDERED AS SITE OF REPOSITORY. THIS SITE REQUIRES HUMAN PERFECTION AND PREDICTION (OF NATURAL ACTS OF GOD (EARTHQUAKES, VOLCANOS, ETC.) PLUTONIUM TAKES 500,000 YEARS TO BECOME SAFE. THE EARTH IS A LIVING BEING. HOW DARE YOU PUMP WASTE WHERE YOU DON'T KNOW WHERE THE LOWER CRUSTS (EVEN WORK) OR WHERE IT WILL BE TAKEN, WHICH WILL CONTAMINATE AND SPREAD LIKE CANCER ALL AROUND THE WORLD.

ANY NUCLEAR WASTE CREATED TODAY IS CLEARLY THE MOST IRRESPONSIBLE, NEGLIGENT, INTENTIONAL GREED-BASED ACT WE (AND OUR FUTURE EARTHINGS) HAVE YET TO SUFFER THE CONSEQUENCES OF.

NANCY FENTON
